☺	Compatible
😐	Supported with known limitations
☹	Not compatible
	Current Products
	Discontinued products
-	No video output from iPod

1.   iPod screen does not support Dension menu of the ice>Link Plus and the Gateway 300v1 / 400. Function of Disc 6 has changed accordingly in new firmware upgrades, which are available now
2. :   iPod does not display song information in iPod Gateway Interface mode. Please note, active products don't have this feature
3. :   iPod does not charge. Solution is to use a dock cable with white mini-DIN connector, already available. Active Cradles are compatible with the iPod replacing them is not necessary only if you want to hold it securely
4. :   After connecting the iPhone, a warning message will be displayed, please continue with normal operation
5. :   5G Active Cradle is required to hold nano 1G/4G/5G, touch 2G/3G and iPhone 3G/3Gs securely
6. :   This product does not support iPod video output even with 'IVE1000' interfaced
7. :   Apple has changed the charge specifications (5V only) on newly released iPods. Marked products cannot charge these iPods

    *GW100v1 is referring to product code GW15___ & GW100v2 is referring to product code GW16__.
    ** GW300v1 is referring to product code GW3R___ & GW300v2 is referring to product code GW32___. (400 is the discontinued product Gateway400, which had a built in CD changer retention)
    *** Dension products 'Lite' and 'ice>Link ONE (FM)' was replaced to be compatible with the new iPod range (5V charging)
    **** 5G Active Cradle works with those Dension devices that support 5V charging
