

How to Activate

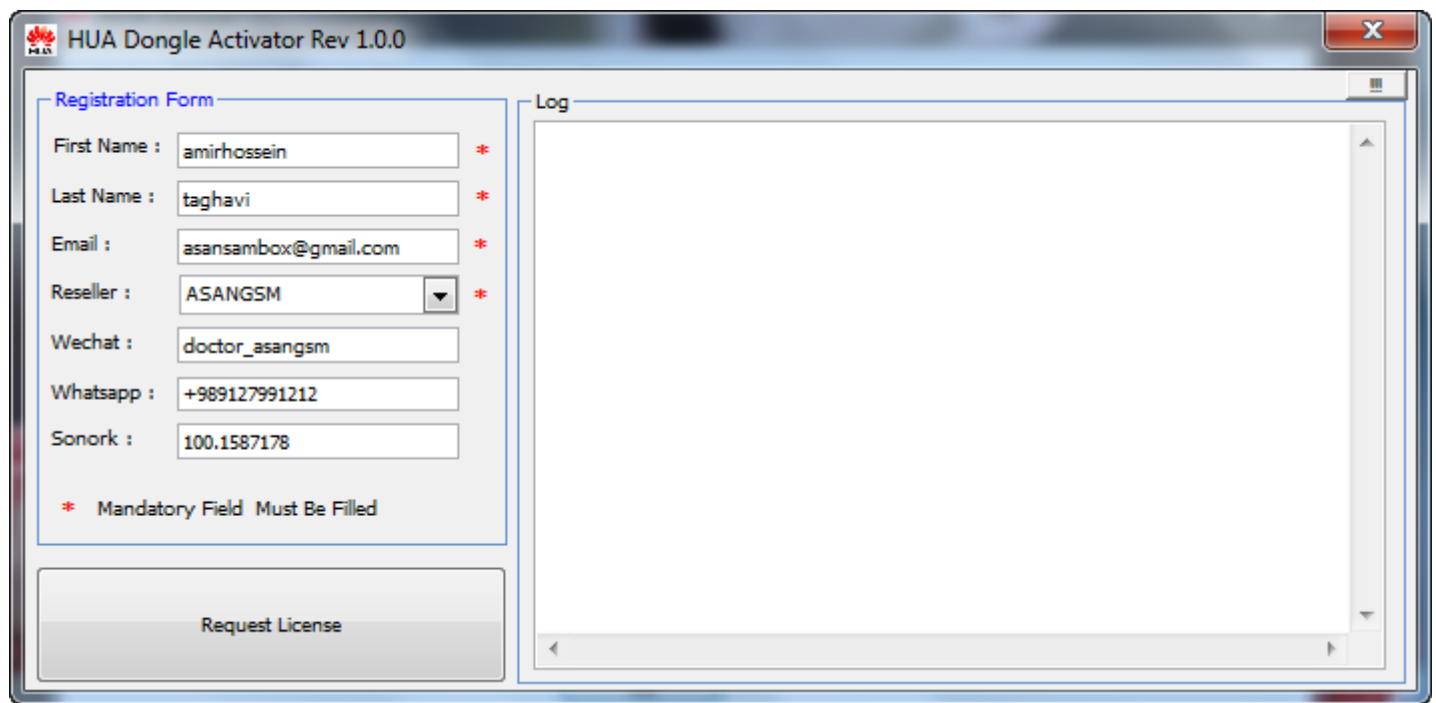

1. Buy the product and send your serial number to reseller for activation
2. Download and install [HUA Dongle Rev.1.0.1.exe](#)
3. Click on **HUA Tool.exe** on your desktop
4. Select “3” and press “OK”

5. Enter the information into registration form

A screenshot of a Windows application window titled "HUA Dongle Activator Rev 1.0.0". The window has a standard Windows XP-style title bar with a close button. The main content area is divided into two sections. The left section is titled "Registration Form" and contains several input fields: "First Name" (with "amir" entered), "Last Name", "Email", "Reseller" (a dropdown menu), "Wechat", "Whatsapp", and "Sonork". Each field has a red asterisk to its right, indicating it is mandatory. Below these fields is a legend: "* Mandatory Field Must Be Filled". At the bottom of this section is a "Request License" button. The right section is titled "Log" and contains a large, empty text area with a scrollbar.

6. Press “**Request License**” button and wait until activation is completed

The screenshot shows a Windows application window titled "HUA Dongle Activator Rev 1.0.0". The window is divided into two main sections. On the left is the "Registration Form" which contains several input fields, each followed by a red asterisk indicating it is mandatory. The fields are: "First Name" (filled with "amirhossein"), "Last Name" (filled with "taghavi"), "Email" (filled with "asansambox@gmail.com"), "Reseller" (a dropdown menu filled with "ASANGSM"), "Wechat" (filled with "doctor_asangsm"), "Whatsapp" (filled with "+989127991212"), and "Sonork" (filled with "100.1587178"). Below these fields is a legend: "* Mandatory Field Must Be Filled". At the bottom of the form is a large button labeled "Request License". On the right side of the window is a "Log" area, which is currently empty. The window has a standard Windows title bar with a close button in the top right corner.

7. Save generated **LIC file**
8. Close **HUA Tool.exe** and re-open it again

That is it.
